

The Rockhampton Botanical Gardens can be a magical location for your evening function. We can make this possible, with a venue hire charge of \$1570 which covers access to the venue until midnight.

Functions are held under the Banyan Fig Trees at the back of the café.

The attraction of the location is that it is a blank canvas, you get to setup and decorate as you would like it, we just facilitate this happening. You will receive personalised service from me (the owner) from the initial discussions about your requirements through to being present on the evening, I am your contact. To transform the space, it is necessary to partner with several other local businesses. The business we choose to work with are as follows.

Firstly, ***CQ Party Hire*** or ***Ace Party Hire*** can provide lighting to the area, you get to choose exactly what affect you would like from their vast range. They are also able to provide a Marque, which needs to be factored into your plans as we are an outdoor venue and need a backup if it were to rain.

We work with ***Lickity Fingers Catering*** and ***Olive Catering*** to deliver the food. Both organisations are run by experienced chefs who will be able to bring your food dreams to reality. The Gardens Tearooms does not have the staffing capacity to cater for evening functions ourselves.

We allow you to work with all the above companies direct, which means no added mark-ups from us.

Drinks are an important part of any functions, our Hire Price includes us providing a tropical fruit punch, urn with cold tap water and a self-serve tea and coffee station. We also supply a mobile Cold Room and setup a bar and staff it, from which alcohol of your choosing can be served. We hire a Security Guard who is present for the evening. You can purchase this alcohol from the supplier of your choice. If spirits need to be poured or table service is required, extra charges will apply. If glassware is required for the serving of your alcohol you will need to supply this also.

At the end of the evening we pack up all loose decorations and place them in our storeroom for collection the following day how you can enjoy the evening.

Evening functions in the gardens are truly unique and very special.
